Naming of School Facilities Regulation (FF-R)

PAGE: 1 of

Schools in The Eastern School District are the property of the District, and the Board has the responsibility to name or re-name schools within its jurisdiction. The Board will consider the naming or renaming of a school or accept requests from a school community that indicate significant community interest for this action. The Board values partnerships with parents and community groups and believes that naming of schools should be undertaken following consultation with these partners.
