PAGE: 1 of 1

The Eastern School District Board recognizes policy development as one of its primary roles. The Board, in consultation with its various partners in education, will develop policy to give direction in the operation of the District education system. The Board shall develop policy as required and may develop policy at the request of employees, parents or students. Regulations shall be developed to implement the policy decisions of the Board. Both policy and regulations will be updated and reviewed on a continuous basis.
