---

The Eastern School District is dedicated to providing a healthy, comfortable and safe work and learning environment for our employees, students and the general public. To this end, the Eastern School District is committed to protect individuals from air contaminants and other materials which cause injury or detriment to health.

Furthermore, the Eastern School District will monitor and respond to emerging research findings pertaining to indoor air quality and environmental issues.

Therefore, Eastern School District policy requires that no person shall knowingly discharge or cause to discharge, from any source whatsoever, such contaminants or materials which cause injury or are detrimental to the health of students, employees, or the public.

This policy shall be prominently displayed and actively promoted in all Eastern School District properties, together with any other information, posters, and regulations that the Board may deem appropriate.
