---

It shall be the policy of the Board of the Eastern School District to encourage the transfer of principals and vice-principals in the District from one school to another. The intent of the policy is to expose the school communities to new leadership and at the same time provide for the personal and professional growth of administrators. The District Board believes that a transfer may motivate a principal or vice-principal to facilitate current learning theories, and to open new avenues of communication within staff and with the community. A transfer has the potential of having a positive effect on the whole school community.

Any present principal or vice-principal hired by the Board of the Eastern School District through a competition may apply for an administrator transfer.
