CENTER TEN (INDIVIDUAL OPTION)

RESEARCH SKILLS: INTERNET  
need: computer

Goal: To investigate flight-related web sites using internet search engines.

Directions:
Use an internet search engine to look up any topic you have studied so far this week. Review a good site and share information about it. What ages is the site good for? What would you use this site for? What are some of the sites interesting features? Who publishes the site? When was it last updated? What information does the site include? Would you recommend using it for this Resource-Based Learning unit on flight?
Here are some search engines you may want to try:

www.excite.com  www.hotbot.com
www.yahooligans.com  www.askjeeves.com
www.go.com  www.netsearch.com

Or you can try any of your own favorites or just pick from your search option menu.

Grading:  
five points for a complete and useful review of one site  /5
Bonus Point for extra effort, information, neatness  +1
