4. **WHITETAIL DEER HUNTING** (National Rifle Association)

Read the first few pages (3-6) of “Whitetail Biology and Behaviour” to answer the following:

About how many whitetail deer are estimated to roam the continent?

Numbers decreased in the 1800s but have greatly improved since then due to the help of

3) _____________________________________________________________________

What is a whitetail’s best developed sense?

How has the whitetail adapted its behaviour to avoid predators (hunters etc.)?

Describe its typical daily routine.

The opening sentence of this section says “Whitetail deer are survivors”. How might you compare them to Mike Rankin?
