TRANSITIONS EXPERT

Transition: the effect that joins one clip to another.

The Transitions section of the Album provides a large set of drag-and-drop clip transitions. To keep things manageable, the transitions are divided into groups. Use the drop-down list to select which group of transitions you want to view. All the transitions in the group are displayed, using as many Album pages as necessary.

Adding Transitions
1. Click on the Transitions button in the Video Toolbox.

2. Preview icons will appear in the Album of each transition effect. You can scroll through the drop-down menu and scroll over to the next page for more selections.

3. Click once on a transition to preview it in the Player.

4. When satisfied with the chosen transition, click on it in the Album and drag it to the timeline to the exact location you wish it to appear (between two clips).

5. If in the Storyboard view, your transition will look like this in the storyboard:
