Grade 12 Students:

In this information handout you will find contacts, mailing addresses, application criteria and deadlines of various scholarships, bursaries and awards. Please also watch and listen for MEMOS and ANNOUNCEMENTS on various scholarships in your Home Room. Many universities and colleges, businesses, and organizations offer scholarships, bursaries and awards that you may seek out through advertisements, word of mouth, and the internet. The responsibility lies with you, the student, to investigate any and all avenues where these scholarships, bursaries and awards may be offered.

As mentioned, be sure to watch daily announcements, check out This Week At Three Oaks, home room for memos, and the Bursary Board in Student Services. These will give you all pertinent information regarding various awards. Please be aware of the “deadline” dates...these are very important. On average, the information arrives the month prior to when the bursary is due.

As we approach the end of the school year, scholarships, bursaries and awards start appearing quickly and often will have shorter deadline dates. Many of these may require a copy of your transcript, letters of recommendation, or perhaps an essay. Be sure to allow yourself and staff members time to prepare any of these requirements.

You are encouraged to read through this booklet to see what you may qualify for. If you are uncertain of any of the information, such as whether you meet the requirements...please, just ask.

Have a great and successful year!

Strive Scholarship Program

- STRIVE is a scholarship program sponsored by the Rotary Club of Summerside that recognizes and rewards students in general, practical or academic courses who show significant improvement in overall performance in their senior year of high school. STRIVE challenges these students to improve their school achievements, gain self-confidence and develop post-secondary education goals.
- Students with 12 or more high school credits completed as of September and who could meet the criteria for graduation in June, are eligible to apply through the school Student Services Department. Applicants would sign the STRIVE contract agreeing to: attend classes regularly, work and study to the best of their ability and continue to develop a positive attitude.
- The progress of the applicants will be monitored throughout the school year as facilitated by the counselors in Student Services. In June the information will be reviewed and the Student Services Department will determine the five recipients of scholarships. These candidates will be presented with their scholarships at the high school graduation ceremonies, by a member of the Rotary Club of Summerside. Recipients will also be recognized with certificates at a breakfast meeting of the Rotary Club.
- Students are required to make application for admission and to obtain entrance into an approved post-secondary program. For Holland College, applications must be received by the end of February and specify that they are possible Rotary Club STRIVE applicants.
- The Rotary Club of Summerside and the staff and students of Three Oaks Senior High School are all partners in this program. By working together, we can promote and foster a positive attitude which will help our future leaders to succeed.
- Students who are accepted into STRIVE in their senior year are offered an opportunity to “strive” for an entry scholarship to college, university, or a minimum twenty week approved post-secondary training program. This involves a commitment between the student, the Three Oaks High School and the Rotary Club of Summerside, wherein academic and counseling support is provided by the school, personal member commitment and a $1,000.00 scholarship is promised by the Rotary Club, and a change in work habits, attendance and study practice is promised by the student. Rather than having the criteria based solely on high grades as with most scholarships, STRIVE looks at efforts to improve, and a student can show a move from ‘D’s to ‘C’s and still emerge with a meaningful entrance scholarship.
- The STRIVE Scholarship Program designates 5 scholarships per year valued at $1,000 each, provided by the Rotary Club. Scholarships will be awarded towards tuition at UPEI, Holland College or any other
similar institution off Island, or for any 20 week or longer approved training course.

- This program has proven to be of significant benefit to all participants, not just those selected as recipients. There is a realization that a new start is possible and that one is not alone. The support of the anonymous Rotarians who set up the program and of the committee members as friends/mentors is a powerful indicator to the students that the community is interested in them.
