Career Profile
Phy 521

The objective of this project is to allow you to explore a variety of careers and to create a career profile presentation to share your findings and enthusiasm with your fellow classmates. The career profile must fulfill the criteria stated below. It is my intention that you will be exposed to a variety of careers via your own research and the research and profiles provided by your classmates.

This is a unique opportunity to create a project of your own design...
take pride in your work and enjoy!

Career Profile Criteria:

1. You must search for a CAREER related to this courses that you find interesting.

2. The following components must be included in your career profile.
   
   A. Describe the career (duties, responsibilities, time commitment);
   B. Explain how the career is relevant to society;
   C. Identify the educational requirements;
   D. Provide a salary range;
   E. Identify at least 3 corporations that currently provide employment in this career;
   F. Provide a current job posting for this career;
   G. You must contact someone currently employed in this career and perform one of the following options:
      i. Provide a vocal recording of his/her comments and answers to your questions;
      ii. Provide a written recording of his/her comments and answers to your questions;
      iii. Have a Guest speaker come to class. (I must be notified of your intention to provide a guest speaker prior to you making the necessary arrangements);
   
   Please Note:
   The individual with whom you wish to contact and the associated questions you wish to ask must be identified and communicated to me prior to making contact.

   H. Graphics to provide clarify or enhance the contents of the career profile ;
   I. References (use the appropriate format associated to each reference type);
   J. Acknowledgments (this is an opportunity for you to give credit to those who have assisted you with information or who have provided guidance.).
